ISAs	£ 824 m	-£ 288 m	£ 400 m

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.

(2) Industry funds under management includes money invested in the underlying funds in which funds of funds invest, but excludes money invested in funds of funds themselves (other than funds of overseas funds) to avoid double-counting.

(3) ISA figures are based on information from fund managers and five fund platforms that provide data to the Investment Association. These are AEGON, Fidelity, Hargreaves Lansdown, Quilter and Transact. The figures do not include business through other ISA providers such as wealth managers.

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.

(2) Industry funds under management includes money invested in the underlying funds in which funds of funds invest, but excludes money invested in funds of funds themselves (other then funds of overseas funds) to avoid double-counting.

(3) These figures include double-counting of investments through FOFs - assets are counted first when invested in a FOF and then when FOF invests in other funds. This gives the best indicator available of the asset breakdown of investors' choices since the Investment Association cannot identify FOFs holdings of funds. Asset types (Equity, Fixed Income, etc) are defined in terms of the Investment Association sectors included. See Table 6 for a listing of the Investment Association sectors allocated to each asset class.

(4) From March 2014, the FUM of mixed asset funds is reduced and the FUM of other funds is increased due to funds re-classified from the Investment Association Mixed Asset sectors to the Investment Association

(5) Prior to January 2012 data is presented according to FUM in UK Domiciled funds.

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.
(2) All sales and repurchases of funds of funds are included. To avoid double counting, transactions between funds of funds and their underlying funds are excluded from January 2010.
(3) The 'Other' Asset Class includes funds from the 'Targeted Absolute Return' and 'Volatility Managed' Sectors which, together, contribute to the overwhelming majority of the Net Retail Sales within the asset class.
(4) Regional Equities total does not match the Equity NRS total as Unclassified and Unallocated equity funds are not allocated a region.

Notes:

(1) Direct includes sales through a sales force or tied agents and private client sales of own funds.
(2) Transactions made through insurance companies (whether in-house or third party) are not included here as they are counted as institutional.
(3) All sales and repurchases of funds of funds are included. To avoid double counting, transactions between funds of funds and their underlying funds are excluded.
(4) Sales and re-purchases reported here differ from those in Table 11 as the figures in Table 11 cover five of the largest platforms whereas the figures in this table cover all platforms. There are also differences in reporting between platforms and fund companies.

Notes:

(1) Figures are based on information provided to the Investment Association by five fund platforms - AEGON, Fidelity, Hargreaves Lansdown, Quilter and Transact. These five platforms accounted for 72% of fund manager gross sales through all fund platforms in 2014. Figures for Hargreaves Lansdown for January to April 2026 are the Investment Association estimates.

(2) Figures are for Authorised Investment Funds including include Funds of Funds. Investment trusts and ETFs are not included.

(3) Figures in this table include a small number of funds - estimated at 12.0% of platform funds under administration at end April 2026 - not included in IA fund statistics because no data is received from fund companies.

(4) Figures for 2008 and 2009 include some Investment Association estimates where full figures were not available for all participating platforms.

(5) Data is presented on a UK domicile basis.

Notes:

(1) Funds under management figures for fund companies and fund platforms for the end of the tax year include a market value adjustment from 31st March to 5th April.

(2) Figures are based on information the five fund platforms that provide data to the Investment Association. These are AEGON, Fidelity, Hargreaves Lansdown, Quilter and Transact. These five platforms accounted for 72% of gross sales through all fund platforms in 2014. Figures for Hargreaves Lansdown for January to April 2026 are IA estimates.

(3) Figures are HMRC statistics for stock and share ISAs invested in funds at the end of each tax year.

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.
(2) Tracker funds aim to replicate the return of a stock market index, e.g. the FTSE 100 or the S&P 500. Tracker funds invest in the same companies that are listed on the index in the same proportions to reproduce as closely as possible the performance of the index. These types of funds are also called index tracker funds or passively managed funds. ETFs are excluded from IA data on tracker funds because it is not possible to show ETF sales and FUM data on a UK investor basis.
(3) Figures for funds under management in actively managed and tracker funds exclude money invested in funds of funds so as to avoid double counting of underlying assets (except where funds invest primarily in overseas funds). Retail sales figures include sales of active and tracker funds of funds.
(4) Figures for actively managed funds presented here are inclusive of money market funds.

Notes:

(1) Each month small revisions to figures may have been made since the previous press release. This reflects additional information received.

(2) SDR labelled funds are funds with one of the four Sustainability labels – Sustainability Focus, Sustainability Improver, Sustainability Impact and Sustainability Mixed Goals under the UK's Sustainability Disclosure Requirements. FUM and net retail sales figures are provided for all identified labelled funds in aggregate under SDR labelled funds (comprised of all funds classified to the IA sectors with one of the four labels). We also provide a separate data point on FUM and net retail sales for funds with a Sustainability Focus label. Funds with Sustainability labels are all UK domiciled funds under SDR. You can find the full list of SDR labelled funds classified to the IA sectors here - https://www.theia.org/industry-data/fund-sectors/funds-list

(3) IA data on responsible investments has been collected using the IA's Responsible Investment Framework. Responsible investment incorporates firm-level and fund-level components. The data presented here is at the fund level where funds are pursuing one or more of the following responsible investment approaches and this approach is referenced in the fund documentation: exclusions; sustainability focus; impact investing. The Responsible Investment data is a separate data set from the data on SDR labelled funds and includes overseas and UK domiciled funds. However, there is some overlap between the responsible investment data and SDR labelled funds data. Funds with SDR labels may be pursuing at the fund level a sustainability focus or impact investing approach under the Framework, although the IA's Responsible Investment Framework does not require funds to have a sustainable investment objective and includes funds applying exclusions. This data series was implemented prior to the introduction of SDR and is provided here for continuity.

(4) Funds under management in sustainable and responsible investment funds exclude money invested in funds of funds so as to avoid double counting of underlying assets (except where funds invest primarily in overseas funds).
